ABOUT US : FULMINARE SOCIAL HELP FOUNDATION

Our Foundation is a Registered Non-Profit Organization dedicated to uplifting marginalized communities and fostering sustainable development in **Rohatas, Bihar**. Since its inception, our foundation has actively worked to address some of the region's most pressing **social challenges, including health, education, and economic empowerment**.

During the **COVID-19 pandemic**, we stepped up to provide critical support by giving out food, masks, and sanitizers to vulnerable people. **Our current projects include skill training for young people, women's empowerment programs, and educational support for underprivileged children**. We also care deeply about the environment, organizing tree planting and cleanliness drives in our area. Our foundation also organizes health camps that bring free medical checkups and medicine to rural communities, and we lead projects that strengthen local development.

“At Fulminare, we believe everyone deserves access to education, art, and culture, and we work hard to make these available to all.”

Our foundation is officially registered under the **NGO Darpan with a unique ID "BR/2021/0273504"** and licensed by the Registrar of Companies as a Section 8 non-profit. **Fulminare Social Help Foundation was founded on September 16, 2020, by Sumit Kumar and Satyendra Kumar Patel.**

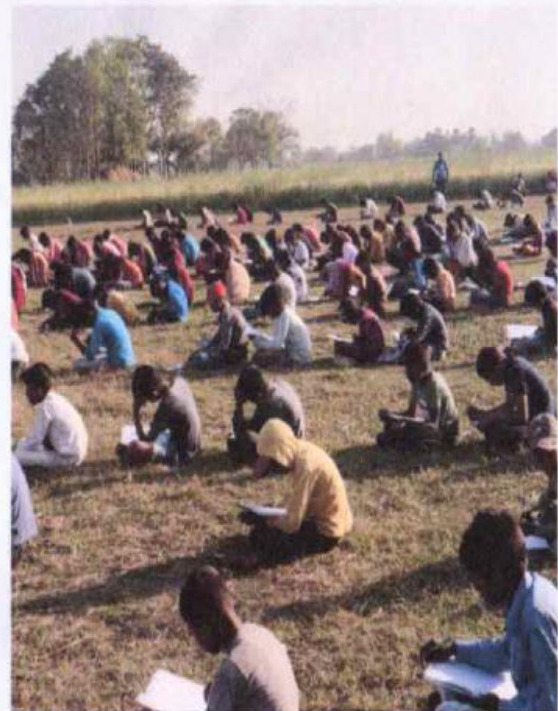

“Our mission is to build a more equitable society by fostering awareness, empowerment, and opportunity for all.”

OUR ALL ACTIVITIES, **PROGRAMMS,** **CAMPAIGNS &** **PROJECTS REPORT**

EDUCATION IS LIFE CAMPAIGN

FSH Foundation works to provide education to underprivileged children, every year since the establishment of 2020, according to 5000 students till now, 15000 students have been given copy, pen, geographic map, general book with free classes under the mission of education is life. Distribution is done, whose real benefits are being seen in the rural areas of Bihar, a hope has arisen among the parents of the children inspired by this mission, who were unable to give education to their children.

Campaign To Save Water in Rural Area

Fulminare Social Help Foundation with the help of its members, in small rural areas, there is a lot of water shortage in the summer season, so many animals sacrifice their lives due to water, even humans are not able to get water far and wide, On this problem, the Foundation is getting the work done for water harvesting in its areas instead of ponds, wells, in which the rain water gets accumulated till the whole summer, to complete this campaign, the big farmers of the area help the small farmers financially. Being completed by this campaign, along with thousands of animals and birds, humans will also be greatly benefited!

Rural Health Campaign and Emergency Help !

We all know that Bihar is very backward in education, health and development, due to this the people of the state are surrounded by many problems, the poor people of the state can live by compromising on education and development, but by compromising on health, Can't live, that's why today many children in Bihar are suffering from malnutrition, and every day people lose their lives due to lack of health, we are very much affected by this problem, due to which FSH Foundation 2020 in the time of COVID Since then thousands of camps have done the work of reducing the pain of people a little bit, and many poor children have been admitted to the hospital and provided better treatment, and further FSH Foundation is moving forward to build a modern hospital in rural areas, Till now, the members of the Foundation lay emphasis on awareness of the families and localities along with health assistance to the children suffering from serious illness in the rural areas, till now the Foundation has directly benefited 8000 afflicted and helpless families of the area.

Hungry Children !

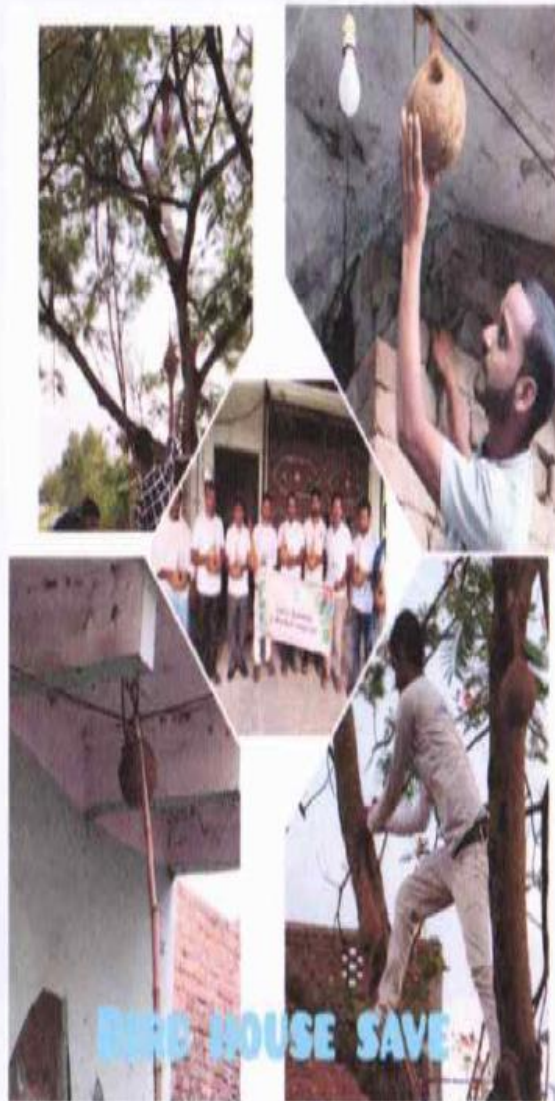

Today, due to increasing unemployment and poverty in the state, rats are searching in the soil to satisfy their hunger in 45° temperature, such a picture is very unfortunate in today's life, because these people are far away from this modern life, because they don't have education. There is no money and there are no resources due to being the most backward state of the country, so the children of millions of families here become victims of malnutrition due to lack of adequate upbringing, due to the hard work of our members once a week clean and we are able to raise nutritious food for these people, because the FSH Foundation has not been able to benefit people much due to financial constraints, till now whatever our cook does in a week, it depends on the big farmers of the country.

Save Bird Campaign

Birds have a big role in keeping our nature clean, but today due to human selfishness, birds are becoming extinct from the earth, the place is dying due to electricity, their habitat forest is being uprooted, due to which the bird is ending. By running a campaign on this initiative, the FSH Foundation is planting factory-made nests on the trees and plants in the village streets, so that birds can at least save some of us, this campaign was started last year in 2022 Till now 13000 nests have been planted, further this campaign will be continued!

Rural Development Campaign

Bihar is the most backward state of India, the people of the village are sad because even today, due to lack of road system in Bihar, people are not able to give good education to their children, because the child has to face a lot of problems in going to school. On this initiative, FSH Foundation built small bus electric pole bridges in the villages of its area with the help of the villagers and due to the deadly potholes in the village roads, it remains filled with water in which many cyclists fall. Due to which they suffer financial as well as physical loss, on this initiative every Sunday the foundation along with the members of the rural roads fills the potholes on the road, with this campaign, 215 km of roads have been repaired so far in one year. Yes, for this campaign to continue further, the foundation makes people aware so that financial help can be collected!

Animal Feed Campaign

In the hilly drought-prone areas of the country, there is a lot of shortage of grass for animals, due to which many animals die due to hunger, on this problem, FSH Foundation collects the waste left behind by the farmers and prepares fodder for the animals. With the help of this initiative, farmers do not even set fire to the fields, and stray animals also get fodder, since 2021 till now 12000 kg of fodder has been produced, due to which food has been made available to thousands of animals. This campaign is the biggest and necessary campaign so far, and for this to be done further and on a larger scale, preparations are being made on a big project, in which 10000 kg of fodder can be produced every year!

Global Warming And Environment Save expo - 2024

FSH Foundation has so far organized the biggest human chain campaign on increasing global warming, to make this campaign successful, the people of the area participated in large numbers, the main objective of this campaign is to stop the increasing natural disaster on the earth, through this campaign A direct message was given to the people in the state that now is not the time, work will have to be done on all aspects to save the earth from this time, through this campaign, the foundation of Global Warming Expo was laid in 2024, in this expo all types of environment related Tableaux will be presented,
