ACTIVITIES IN PANDEMIC

In August 2021 a deadly virus named – corona, again came in our country and have created trouble for all human beings, after nationwide lockdown. It became worse situation for poor people, those who earn on daily basis and live in other state for livelihood, due to lockdown everything had been stopped and without transport they can't able to reach their hometown and where they live there is lack of food and other basic needs. So our team has started an initiative for help to needy people in Covid pandemic – in rural and slum areas people have wrong information about corona virus – they believed on wrong rumours and they scared off too much so our volunteers through various ways spread right information about its precaution and what to do for be safe from this virus.

OUR SOCIAL ACTIVITIES

EDUCATIONAL AND SPORTS ACTIVITIES

We provide free education to needy and poor students, provide them necessary facilities like study materials, clothes and food. In our society child labor is a big problem. At an early age children go on work, because of bad financial condition of their family. Some parents don't give importance to educate their child, they think Education can't feed them. Our team from organization's inception working for upliftment of education standard in our society, and every year we educate deserving children as possible as we can. It helps people become better citizens, get a better-paid job, shows the difference between good and bad. Education shows us the importance of hard work and, at the same time, helps us grow and develop. Thus, we are able to shape a better society to live in by knowing and respecting rights, laws, and regulations. Higher levels of education are associated with a wide range of positive outcomes – including better health and wellbeing, higher social trust, greater political interest, lower political cynicism, and less hostile attitudes towards immigrants. Our team of youth volunteers visit those places where too

much lack of awareness and try to convince their parents to send their children for study every year.
